

Workplace inspection checklist

Format No.:

Date	Inspection No.	Inspection Location	Department
Inspector Name :			
HAZARD CODING			
FETAL: - The parameters of the hazard/risk are comparatively high and combined in a manner that causes, or could result in death, permanent total disability, or irreversible damage that violates law or regulation			
MAJOR: - The parameters of the hazard/risk exist at a level that does or will result in permanent partial disability, injuries or occupational illness that may result in hospitalization of at least three personnel, or reversible damage causing a violation of law or regulation.			
MODERATE: - The parameters of the hazard/risk all exist at recognizable levels and are / can result in injury or occupational illness resulting in one or more lost work days, or damage without violation of law or regulation where restoration activities can be accomplished			
MINOR: - Some of the parameters exist at recognizable levels and are (can) result in injury or illness not resulting in a lost work day or not violating law or regulation. The effect of such change is easily recoverable or self recovering, and there is no lasting			
INSIGNIFICANT: - None of the relevant parameters exist at a level that can cause injury or illness.
